Tech Empower

Subject: Project presentation 3

Due Date: 4 May 2026

Name	Student number
Tumelo Gabriel Masilela	222335726
Jabu Mnguni	221258639
Tiisetso Tukane	222206616
Siphesihle mkiva	219462593
Pule Dzavana	222018437

1. TEAM PURPOSE & VISION

Why do we exist? To bridge the digital divide in under-resourced public high schools in Cape Town.

Team Mission: We are solving the lack of functional computer labs and stable internet access for Grade 8-12 learners in communities such as Khayelitsha, Mitchell's Plain, and Gugulethu.

Success Definition: Success is achieved when learners gain digital skills for university and employment, verified by their ability to use modern tools effectively.

Product/Service: Mobile digital learning services providing hardware, internet, and structured IT training (Microsoft Word, PowerPoint, coding).

2. TEAM MEMBERS & ROLES

NAME	ROLE	KEY RESPONSIBILITIES
Tumelo Gabriel Masilela	Product Owner / Team Leader	Vision, backlog prioritization, and stakeholder management.
Jabu Mnguni	Agile Lead / Researcher	Facilitating ceremonies, removing blockers, and data research.
Tiisetso Tukane	Developer / Writer	Content creation, documentation, and technical writing.
Siphesihle Mkiva	Designer	UX/UI design for training modules and mobile lab setups.
Pule Dzavana	Tester / Presenter	System testing and presenting progress to schools.

3. WAYS OF WORKING

3.1 Agile Framework

Kanban: We use Trello as our primary visual tool to manage workflow and track tasks from backlog to completion.

3.2 Ceremonies

CEREMONY	FREQUENCY	PURPOSE
Daily Stand-up	Daily (15 min)	Sync on Trello board status and address immediate blockers.
Planning	Every 2 Weeks	Prioritize new school targets or training module development.
Review / Demo	End of Sprint	Demonstrate completed digital skills modules or hardware setups.
Retrospective	End of Sprint	Discuss team performance and how to improve collaboration.

4. WORKING AGREEMENTS

-Be punctual for all ceremonies.

-Update Trello cards in real-time as status changes.

-Follow the "Definition of Done" before moving any card to the final column.

5. COMMUNICATION

-Primary Channels: WhatsApp (Urgent syncs) and Trello (Project tracking/Task assignment).

-Response-time: 4 hours during school hours; Trello notifications must be checked once daily.

-Remote Norms: Cameras on during Review/Retrospective; documents stored on Microsoft Teams/Google Drive.

6. DECISION-MAKING

Method: Decisions within "Tech Empower" are made through a consensus-based model where possible.

Role-Based Decisions: Small technical decisions are made by the specific role-owner (e.g., Siphesihle for design choices).

Team-Wide Decisions: Major changes to project scope or training content require a majority vote during Planning sessions.

Tie-Breaking: In the event of a deadlock, the Team Leader (Tumelo) has the final authority to ensure project momentum.

7. DEFINITION OF DONE (DOD)

Work is "Done" when:

-The Trello card is in the "Done" column.

-All documentation is attached to the card.

-The Product Owner has reviewed and added a "Final Approval" comment.

8. CORE VALUES & BEHAVIOURS

-Transparency: Keeping the Trello board accurate so everyone knows the project status.

-Accountability: Every card must have an owner responsible for its completion.

-Respect: Valuing the technical expertise of all five team members.

9. RISKS & CONSTRAINTS

-Known Risks: Equipment security and inconsistent school schedules.

-Constraints: Academic year deliverables and limited budget for mobile data.

10. REVIEW & IMPROVEMENT

To ensure this charter remains a living document:

-Frequency: This charter is reviewed at the end of every Sprint Retrospective to ensure our ways of working evolve with the team's needs.

-Improvement: Any team member can propose an update to our working agreements during the retrospective session.

11. TEAM COMMITMENT

By working on this team, we commit to the principles and agreements outlined above.
